

## Recommended Books & Tools

The following is a list of books on various subjects that I would highly recommend. In most cases, I will recommend only the book that I think is absolutely the best I have personally read and if you were to read only one book on the subject this is where I would suggest you start. However, in some cases I will list an "Honorable Mention" also. I don't necessarily agree with everything in every book on the list. My advice is to search the scriptures to see whether or not something is so or to put it another way, eat the watermelon and spit out the seed.
